PlayTiles® by dinoflex

Recycled Rubber Flooring
Dinoflex PlayTiles® are specifically designed to reduce injuries from falls under the guidelines set out under the ASTM F1292 standards. These tiles are ideal for schools, parks, daycares, multi-family playgrounds, backyard play areas and can even be used with indoor or outdoor climbing walls. The unique interlocking system can easily be installed over concrete, asphalt or compacted gravel. In addition, these tiles provide you the option of incorporating designs and symbols into the surface to make it even more appealing to children – imagine hopscotch or the alphabet built right into your playground surface. Use Dinoflex PlayTiles® to create a fully accessible playground surface that can be used in virtually any weather and is tough enough to stand up to the most active children.
### PlayTiles®

**Interactive Tiles:**
Turn your playground into a one-of-a-kind space that promotes learning, creativity and fun by adding one or more of our colorful Game sets to your surface.

- **Traffic Set**
- **Alphabet Set**
- **Hopscotch Set**
- **Space Set**

**Need a higher fall height?**
Ask about our Dinofall system that creates a fall height of up to 11 ft.
Colors:

Pigment*

*Variation in color occurs in all pigmented products. Pigmented tiles are not recommended for high traffic areas because of potential pigment loss.

EPDM Speckled

Interlocking System

Dinoflex self-aligning interlocking system provides for a fast and accurate installation.

Interlocking tubes at no charge with every order.

Dimensions:
- 19 1/2” x 19 1/2” = 2.64 ft² (49.5 cm x 49.5 cm = 0.24 m²)
- 24” x 24” = 4 ft² (61 cm x 61 cm = 0.37 m²)

Features:
- Easily installs on compacted soft ground or solid surfaces
- Meets ASTM F1292-09
- Water permeable
- High traction
- Durable
- Low maintenance
- Meets ADA standards
- Qualifies for LEED credits
- Interlocking system - No glue required

Applications:
- Schools & Parks
- Day Cares
- Preschools
- Back Yards
- Play Areas
- Climbing Walls
